

Enclosure 3 to DTIC-R FOIA 2009-74
Defense Technical Information Center
Bibliography of AUTOVON-Related Documents Not Approved for Public Release
July 21, 2009

This enclosure 3 to DTIC-R FOIA 2009-74 consists of a bibliography that contains unclassified descriptions of classified and/or unclassified/limited distribution documents. These documents are NOT approved for public release. These documents may only be released by the appropriate controlling activities. Requests for these documents should be forwarded to the controlling activities, usually identified in the Distribution Statement field of the citation. NOTE: Although some of the citations listed on the bibliography at enclosure 3 may indicate that the document can be viewed and/or downloaded in full text, be advised that these citations/documents are not available to the general public through the DTIC Online Public Technical Reports.

A note from the original requester of this bibliography: if you are interested in any of these documents, first contact the organization or agency listed in the "Distribution Statement" field of that document's entry in this bibliography and ask them for a copy. They may send you a copy of the document without any further ado. If they won't, you will have to file a formal Freedom of Information Act request with them; if the document you are seeking is classified, you may wish to file a Mandatory Declassification Review request with them instead. Either way, you should eventually be able to get a copy of any (or at least most) of these documents.

IN REPLY
REFER TO

DTIC-R (FOIA 2009-74)

JUL 21 2009

Dear _____ :

This is in response to your email dated June 19, 2009 requesting information under the Freedom of Information Act (FOIA) (enclosure 1). Under Department of Defense rules implementing the FOIA, published at 32 CFR 286, your request was categorized as "other."

Enclosed is a computer-generated bibliography prepared by matching the subject term in your request against our database (i.e., *AUTOVON*; *Autovon*; *autovon*). The bibliography may contain some documents that do not apply to the specific subject area in which you are interested; however, to eliminate any of the key search terms could also eliminate documents that do apply to your subject area(s) of interest.

The documents listed on enclosure 2 have been approved for public release and can be obtained from the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, VA 22161. NTIS sells such documents to the general public and, if you wish, you can order the documents by telephone at (703) 605-6000. Be sure to include the AD numbers when requesting the documents. NOTE: Some of the documents listed on the bibliography on enclosure 2 can be viewed and/or downloaded in full text through the DTIC Online Public Technical Reports website at <http://www.dtic.mil/dtic/search/tr/index.html>. Once at the site, in the "Search for" box, type the full document number as its written (ex: ADA432533), then click the "Search" button; In the Accession Number field, click on the link "View Full Text (pdf)".

Enclosure 3 consists of a bibliography that contains unclassified descriptions of classified and/or unclassified/limited distribution documents related to your request. These documents are NOT approved for public release. These documents may only be released by the appropriate controlling activities. Requests for these documents should be forwarded to the controlling activities, usually identified in the Distribution Statement field of the citation. NOTE: Although some of the citations listed on the bibliography at enclosure 3 may indicate that the document can be viewed and/or downloaded in full text,

JUL 21 2009

be advised that these citations/documents are not available to the general public through the DTIC Online Public Technical Reports.

Regarding your request for a Research Summaries (previously known as Work Unit Information System (WUIS) and Technical Efforts and Management Systems (TEAMS)) bibliography, please be advised that we do not currently have a format to produce a bibliography for Research Summaries, however we are in the process of creating a format. Once this format has been developed and finalized, we will forward the Research Summaries bibliographies to you under separate cover. We apologize for any inconvenience that may occur due to this process.

To date, there are no assessable fees for services from the Defense Technical Information Center (DTIC) at this time. Please understand that other members of the public may submit a FOIA request for copies of FOIA requests received by this office or the names of those who have submitted requests. Should such occur, your name and, if asked for, a copy of your request will be released; however, your home address and home telephone number will not be released. Other private citizens who have obtained your name by using such a request may contact you. However, correspondence from the DoD about your request will be on official letterhead. Please call me at (703) 767-9204 if you have any questions. Thank you for your interest in obtaining information from DTIC.

Sincerely,

MICHAEL HAMILTON
Acting FOIA Program Manager

Subject: FOIA request for computer-generated bibliography -- "autovon"

June 19, 2009

Defense Technical Information Center
Attn: DTIC-RSM [Michael Hamilton, Acting FOIA Manager]
8725 John J. Kingman Road, Suite 0944
Fort Belvoir, VA 22060-6128

Via email: foia@dtic.mil

Dear Mr. Hamilton:

This is a request under the Freedom of Information Act. I request a copy of a computer-generated technical report bibliography of reports on the subjects/keywords of:

"AUTOVON" (or **"Autovon"** or **"autovon"**, if your search system is case sensitive)

Please send me this bibliography for all years between 1945 and today in your computerized index.

You do not need to search your manual card index.

Please also conduct a search of the TEAMS (Technical Effort & Management Systems) database, which was formerly called WUIS (Work Unit Information System).

This is a request for DTIC records, please do not forward my request to NTIS. Please include the bibliography for unclassified/limited and for classified records in your search. If any of the records are limited or classified, please review them for release, or else the release of nonsensitive portions.

I am an individual, noncommercial requester and this request is not being made for commercial purposes. I also agree to pay up to \$25 if necessary for reasonable fees associated with this request.

Please contact me if you have questions or need additional information. My contact information:

Thanks very much for processing this request.

Sincerely,

6/22/2009

Encl
